

INDIGO EDITION

GAMEPLAY GUIDE

AGES 8 AND UP | 2-4 PLAYERS

CONTENTS

Folding game board, 100 wood letter tiles, 4 wood tile racks, one fabric tile pouch, and one scorepad with pencil.

OBJECT

In the SCRABBLE game, players form interlocking words, crossword fashion, on the board using letter tiles of different values. Each player competes for high score by taking advantage of the letter tiles, as well as the premium squares on the board. In a 2-player game, a good player scores in the 300-400 point range.

SETUP

Place all letter tiles in the pouch, or facedown beside the board, and mix them up. Draw for first play. The player with the letter closest to “A” plays first. A blank tile beats any letter. Return the letters to the pool and remix. All players draw seven new letters each and place them in their racks.

GAMEPLAY

1. The first player combines two or more of their letters to form a word, and places the word on the board to read either across or down with one letter on the center ★ square. Diagonal words are not allowed.
2. Complete your turn by counting and announcing the score for that turn. Then draw as many new letters as you played, always keeping seven letters on your rack, as long as there are enough left in the pouch.
3. Play passes to the left. The second player, and then each in turn, adds one or more letters to those already played to form new words. All letters played on a turn must be placed in one row across or down the board to form at least one complete word. If, at the same time, they touch other letters in adjacent rows, those must form

complete words, crossword fashion, with all such letters. The player gets full credit for all words formed or modified on their turn.

4. New words may be formed by:
 - a. Adding one or more letters to a word or letters already on the board.
 - b. Placing a word at right angles to a word already on the board. The new word must use one of the letters already on the board or must add a letter to it. (See Turns 2, 3 and 4 on page 6.)
 - c. Placing a complete word parallel to a word already played so the adjacent letters also form complete words. (See Turn 5 on page 6.)
5. No tile may be shifted or replaced after it has been played and scored.
6. Blanks: The two blank tiles may be used as any letters. When playing a blank, you must state which letter it represents. It remains that letter for the rest of the game.
7. You may use a turn to exchange all, some, or none of your letters. To do this, place your discarded letter(s) facedown. Draw the same number of letters from the pool, then mix your discarded letter(s) into the pool. This ends your turn.
8. Before the game begins, players should agree on which dictionary they will use, in case of a challenge. All words labeled as a part of speech (including those listed of foreign origin, and as archaic, obsolete, colloquial, slang, etc.) are permitted with the exception of the following: words always capitalized, abbreviations, prefixes and suffixes standing alone, words requiring a hyphen or an apostrophe.

Any play may be challenged before the next player starts a turn. If the play challenged is unacceptable, the challenged player takes back their tiles and loses that turn. If the play challenged is acceptable, the challenger loses their next turn. All words (not just one) made in one play are challenged simultaneously. If any word is unacceptable, the entire play is unacceptable. Only one turn is lost on any challenge. Consult the dictionary for challenges only.

- Ending the Game:** The game ends when all letters have been drawn and one player uses their last letter, or when all possible plays have been made.

SCORING

- The scorekeeper tallies each player's score, entering it after each turn. The score value of each letter is indicated by a number at the bottom of the tile. The score value of a blank is zero.
- The score for each turn is the sum of the letter values in each word(s) formed or modified on that turn, plus the additional points obtained from placing letters on premium squares.
- Premium Letter Squares:** A plum square doubles the score of a letter placed on it; a pink square triples the letter score.
- Premium Word Squares:** The score for an entire word is doubled when one of its letters is placed on a light blue square; it is tripled when one of its letters is placed on a dark blue square. Include premiums for double or triple letter values, if any, before doubling or tripling the word score.

If a word covers two premium word squares, the score is doubled and then re-doubled (4 times the letter count), or tripled and then re-tripled (9 times the letter count).
NOTE: The center ★ square is a light blue square, which doubles the score for the first word.

- Letter and word premiums count only on the turn in which they are played. On later turns, letters already played on premium squares count at face value.
- When a blank tile is played on a light blue or dark blue square, the value of the word is doubled or tripled, even though the blank itself has no score value.
- When two or more words are formed in the same play, each is scored. The common letter is counted (with full premium value, if any) for each word. (See Turns 3, 4 and 5 on page 6.)
- BINGO!** If you play seven tiles on a turn, it's a Bingo. You score a premium of 50 points after totaling your score for the turn.
- Unplayed Letters:** When the game ends, each player's score is reduced by the sum of their unplayed letters. In addition, if a player used all of their letters, the sum of the other players' unplayed letters is added to that player's score.

HOW TO WIN

The player with the highest final score wins the game. In case of a tie, the player with the highest score before adding or deducting unplayed letters wins.

EXAMPLES OF WORD FORMATION & SCORING

In the following, the words or letters added on five successive turns are shown in bold type. The scores shown reflect the letter R being on the center ★ square. In Turn 1, count HORN; in Turn 2, FARM; in Turn 3, PASTE and FARMS; in Turn 4, MOB, NOT and BE; in Turn 5, BIT, PI and AT.

Turn 1: Score 14

Turn 2: Score 9

Turn 3: Score 25

Turn 4: Score 16

Turn 5: Score 16
